

ECOSSEN -

**is the association of forward-thinking
organizations concerned over the issues
of ecology**

**The issue of the
size of the
continent.**

Two billion tons of solid household wastes is produced annually by the humankind.

Circa 20% of wastes is being processed in the world at average, the remainder is transformed into the massive waste dumps.

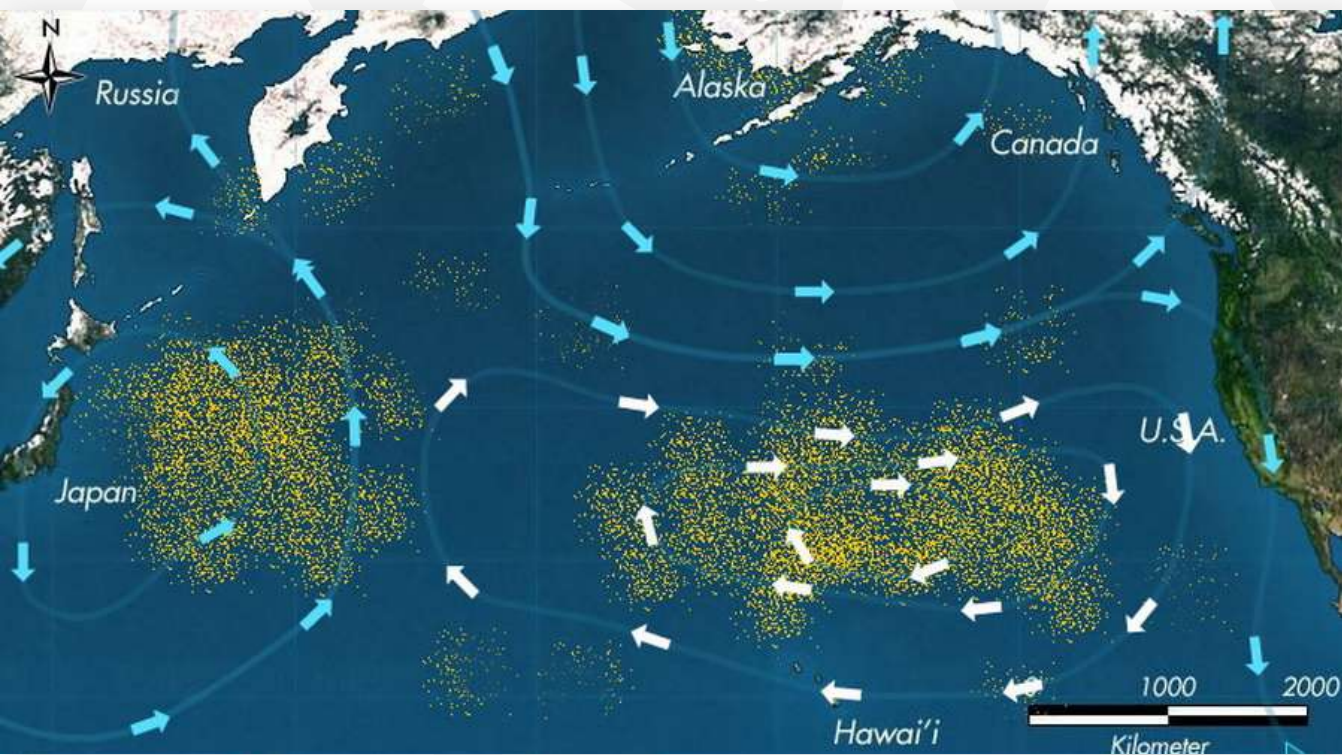

Waste dump areas are increased daily up to several hundred kilometers

More than 30 billion tons of solid household wastes are accumulated on landfill sites and waste dumps in Kazakhstan.

Great Pacific Garbage Patch (Eastern Garbage Patch), area is to 15 million sq.km.

КОНТИНЕНТ), ПЛОЩАДЬ ДО 15 МЛН КВ. КМ.

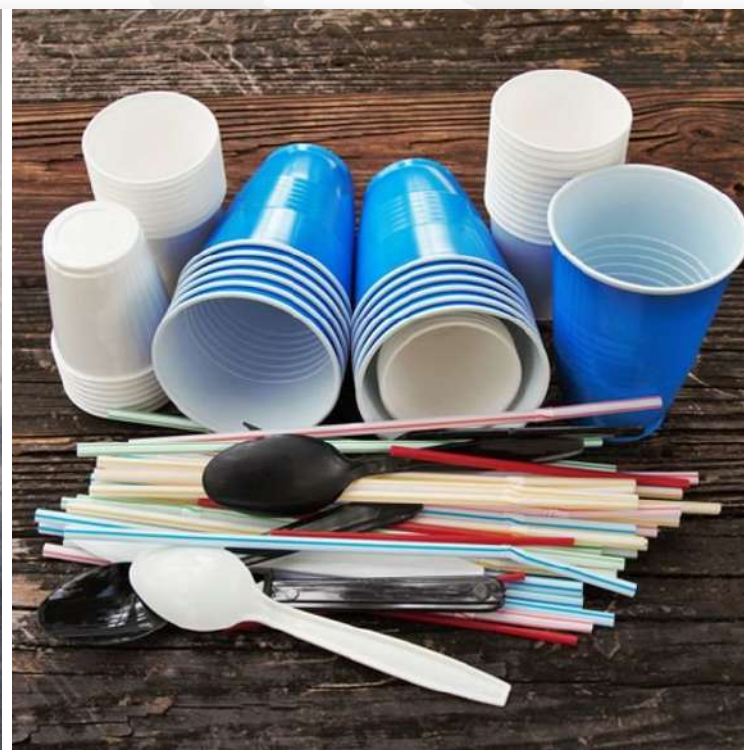

Enormous numbers of animals are killed due to wastes.

ZERO WASTES PRINCIPLES

**The way to reduce
wastes and waste
dumps.**

**REFUSE – refuse of overconsumption,
using disposable plastic tableware and
“paper dishes”.**

REDUCE – reduce consumption of those goods which you can't refuse, we don't need 20 pair of shoes, 5 pair is enough.

REUSE – reusing of goods, if there is an alternative to buying the new goods, then use it.

RECYCLE – start separating wastes and discarding wastes for processing.

И СДАВАТЬ ОТХОДЫ НА ПЕРЕРАБОТКУ.

ROT – composting of the food and organic wastes, using the compost as a form of fertilizer.

**To merge into
ECOSSEN means to
love home.**

Who are we?

We are a sole company in Kazakhstan who accept all types of processed raw materials. Apart from collection of processed raw materials we widely participate in promotion of ecological awareness of Almaty city community. Providing services of "Green office", run campaigns, Saturday clean-up events, working in collaboration with the charity organizations.

@ecosen.kz

@ecosen

8 (701) 045 77 73

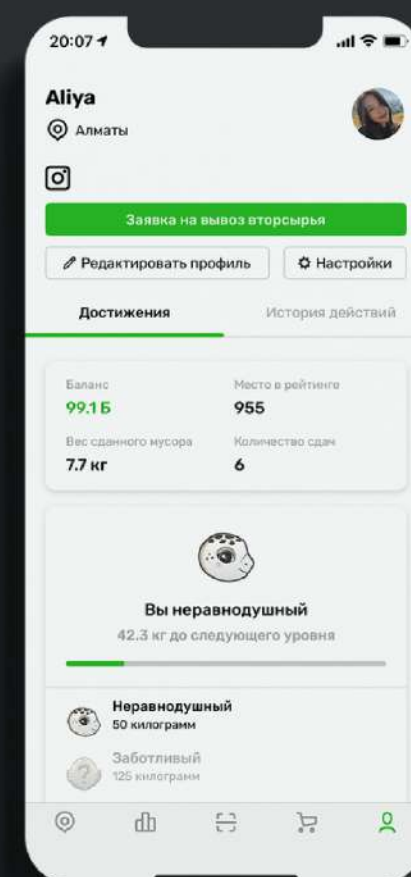

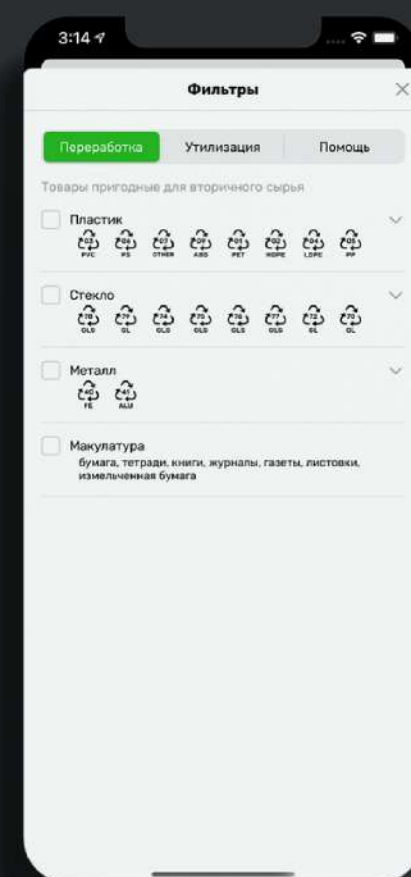

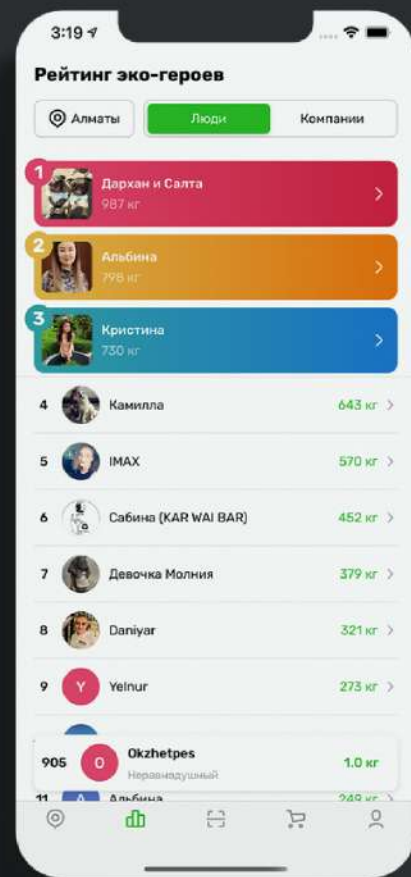

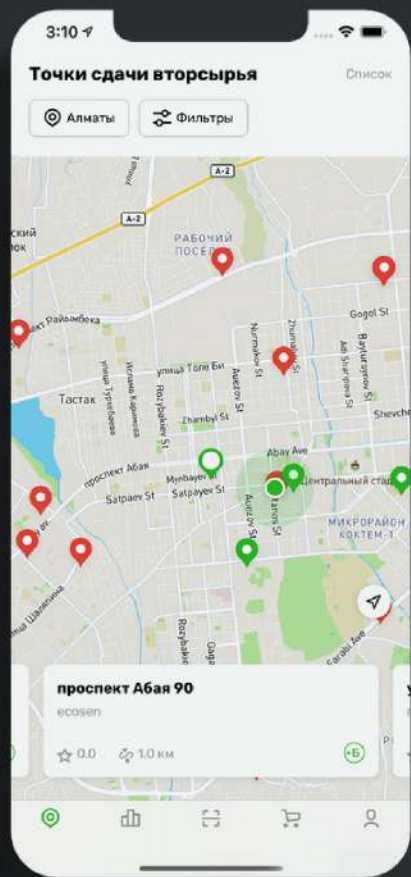

We collaborate with the Public foundations and movements:

We implement the option of “Green office” into the Company as one of the solution of business ecologization.

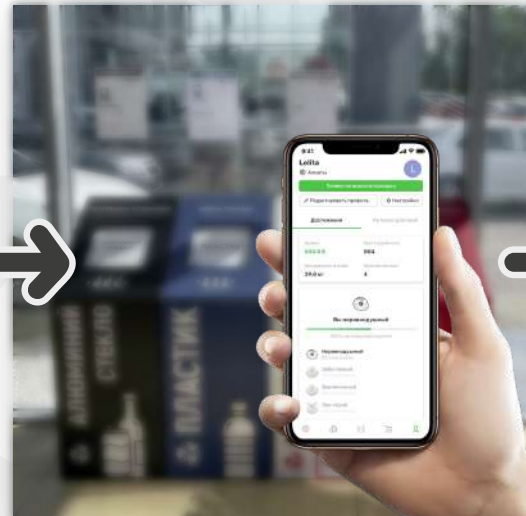

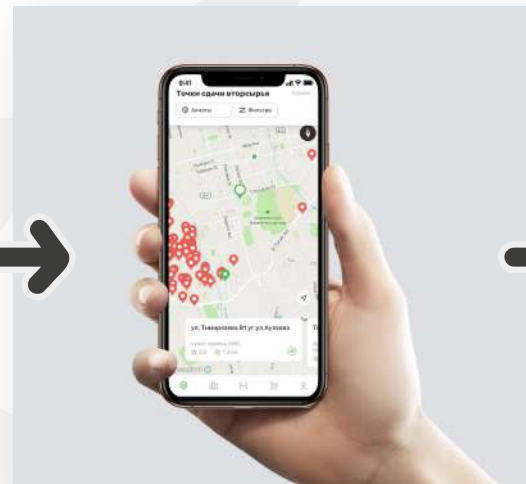

Mobile application "ECOSEN".

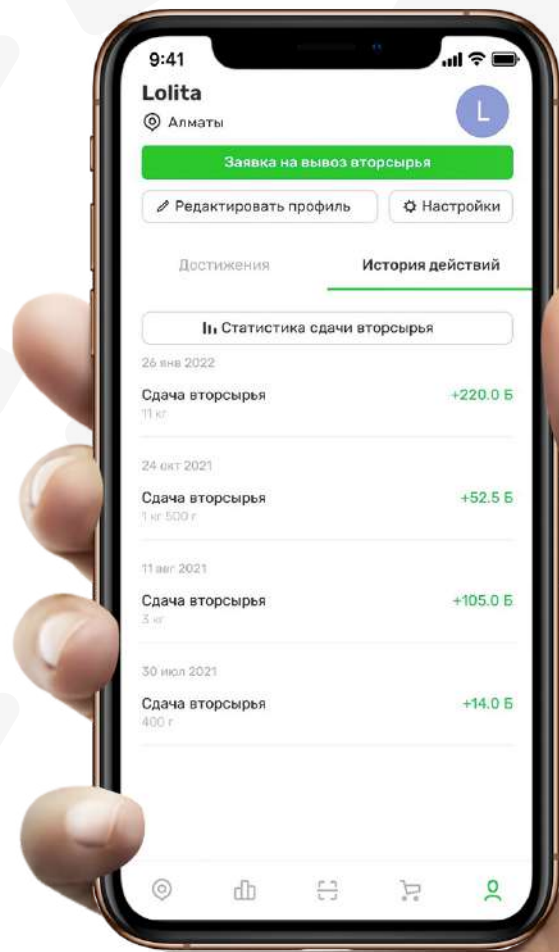

8000+ users

Comprehensive system "ECOSEN".

Bonus scheme "ECOSEN".

For each delivery of recovered materials to our center or by using recovered materials removal services the users of "ECOSEN" application earn some bonus.

Accrued bonus may be spent in the application under category Shop.

**How to start
deliver wastes for
processing?**

1. Find recoverable wastes acceptance center which is convenient for you;

2. Familiarize with the rules of the center, find out what they accept;

3. Start recognizing the identification marks and make familiar with the Wastes reduction culture in your own way.

Love cannot be forced.

Don't push yourself to do everything at once, deepen into eco-friendly way of life gradually.

**What do we accept
for processing in
ECOSSEN centers?**

In what shape to deliver the wastes?

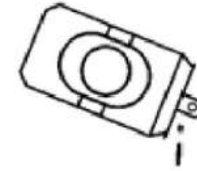

Pour out liquid

Squash the bottle

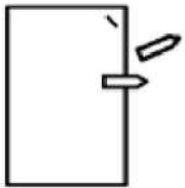

Close the cap

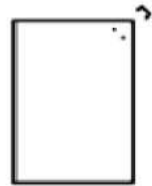

Pour out liquid

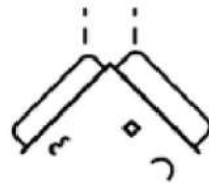

Squash

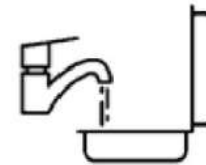

Remove labels

Remove clips from
staples

Remove the contents

Wash plastic/
rinse off plastic

Identification marks of the recovered materials (plastic).

PET PETE PET-R	HDPE PE HD	PVC 	LDPE PE LD	PP	PS 	OTHER

How to recognize the identification mark of the package? Where is the identification marks reference shown?

Plastic with identification mark

PVC/ПВХ – 3

PS/ПОЛИСТИРОЛ – 6

OTHER/ДРУГОЙ - 7

What type of plastic is not processed in Kazakhstan?

Any kind of package with the initial letter C/. C/ - COMPOSITE (mixed), Most often, they are the multilayer packages.

Tetrahedral packs (Tetra Pack) and multilayer packages, paper disposable tableware, pouches, doy-packs.

In what shape the wastes shall not be delivered for processing into the recovered materials acceptance centers?

**What happen to
the wastes since
they got into
ECOSSEN?**

WASTE PAPER – LLP “Maolin”
CARDBOARD – LLP “NurKagazy”

PLASTIC PET1 – LLP “BetaPlast”

PLASTIC HDPE2, LDPE4 – LLP “Era Almaty”

PLASTIC PP5 – LLP “EcoFocus”.

Colourless glass – LLP “QAZAQ GLASS COMPANY” SAF.

Coloured glass – LLP “Glass Trade”.

METALL – “QAZMETSERVICE”.
ELECTRONICS – LLP “Linkad”
LLP “Ali Temir Kz”.
